## THE TURNER DIARIES

AS READ BY THE AUTHOR  
**WILLIAM PIERCE**

### **Dr. Pierce Reads *The Turner Diaries* on CD**

Dr. William Pierce's ground-breaking action novel, *The Turner Diaries*, is now available as a high-quality, newly-re-mastered audio book, *read by Dr. Pierce himself*. This mp3-CD of *The Turner Diaries* — a complete and unabridged

reading of the entire book, is over *ten hours in length*. Its new price is far less — less than half — than that of the old edition, last available about a decade ago.

This is the book that the Jews falsely claimed was "responsible for the Oklahoma City bombing." It contains startling scenes of violence, race war, terror-

# WHAT WILL YOU DO WHEN THEY COME TO TAKE YOUR GUNS?

Earl Turner and his fellow patriots are forced underground when the U.S. government bans the private possession of firearms and stages the mass Gun Raids to round up suspected gun owners.

The hated Equality Police begin hunting them down, but the patriots fight back with a campaign of sabotage and assassination. An all-out race war occurs as the struggle escalates. Turner and his comrades suffer terribly, but their ingenuity and boldness in devising and executing new methods of guerrilla warfare lead to a victory of cataclysmic intensity and worldwide scope.

The FBI has labeled *The Turner Diaries* "the bible of the racist right." If the government had the power to ban books, this one would be at the top of the list. It is the most controversial book in America. Enjoy it now in this audio book read by the author, Dr. William Pierce, who wrote originally under the pen name Andrew Macdonald.

ism, and revolution. It's a revolutionary novel in which the good guys win — and it's the good guys winning part that has so enraged the Jewish media, who publish violence-laden novels themselves at a rate of hundreds every year.

Dr. Pierce, with Kevin Strom as studio engineer, recorded and edited this huge production over the course of several weeks during the summer of 1995 in the media production studio upstairs at the Alliance's main campus building in West Virginia.

Dr. Pierce emphasized the impor-

tance of this book:

I wrote the book not just as entertainment, not just as an attempt to predict what would happen in America in the next 20 years, but I also had a message. I think that message is a dangerous one for the people who are controlling the American government, and for the people who are setting the propaganda line of the mass media in this country. I think it's very dangerous for them. I think they should be very concerned because, if that message reaches a large enough number of people in this country and is taken to heart, they will be in a very dangerous situation indeed.

Dr. Pierce gave every scene, every idea, every inflection in the dialogue of

every character *exactly* the intonation required for maximum effect. No one knows better than the author the effect he was trying to achieve — and there are few speakers better than Dr. Pierce. This audio edition of *The Turner Diaries* may quite fairly be described as the *perfect* edition as well.

“I took special care to ensure the highest audio quality when I first made this audio book,” Mr. Strom says, “using 15ips analogue reel-to-reel tape for the master recording and an Electro-Voice studio microphone. And we’ve made the quality even better with our 2017 digital remastering.” The result is noticeably superior to the early digital recordings made by Dr. Pierce, which form the bulk of his *American Dissident Voices* output. “You’ll be astonished at how good this version of *The Turner Diaries* sounds,” he added, “1,000 per cent. better than most Pierce recordings, to my ears.”

We are now taking pre-orders (the CDs are being manufactured now) for this important new edition and recruiting tool. You can order online at:

### **Report From The Land**

January on The Land was much busier than December. The selective harvesting of timber has finally begun, with four truckloads already taken to market and several more loads stacked in our staging area for the truck to pick up as

weather permits. Our professional arborist and the small family-owned mill we are working with have been very helpful in teaching us how to do everything in compliance with West Virginia Department of Forestry regulations and with best practices for managing our forest.

It is nice that our mill also purchases the unsightly “slag” or pulp material that is usually left on the ground by large timber contractors. We have our regular three-man crew here of experienced local volunteers who do all the cutting, then stacking of timber — everything but loading the truck.

We use environmentally-friendly tractors to move logs after felling, instead of the bulldozers and skid loaders the big boys use that make a mess of the site.

For a couple of days at the end of the month we had five workers processing logs, beginning in the morning in sub-zero but clear weather, and soon scurrying about like a colony of eager beavers. We first prepared the staging area for the truck, then cleared around the old guest trailer adjacent to Dr. Pierce’s residence. Next we cleared a new right of way from there up to the A-frame cabin. We are now working behind the William Luther Pierce Memorial Garden area where we have discovered a mature, salvageable apple orchard that needs some serious thinning of larger trees. As we build our self-sustaining, intentionally White community we have successes and failures, victories and defeats. Our task as cadre members is to endure and learn from both, and develop our abilities and resources accordingly.

Today (Saturday, 28 January), I took a late afternoon “presence patrol” around

RESPONSIBLY HARVESTING the renewable resources on our land, and following sustainable forestry practices, is the ecologically responsible way to both advance the social, political, and organizational goals of the National Alliance and to keep the beautiful, spiritually inspiring forest bequeathed to us healthy and growing. The Chief of Staff at our West Virginia campus, David Pringle, is also being responsible in marshalling our very limited financial resources: He, and the team of local volunteer supporters he has assembled, do almost all the timber work themselves — everything but loading the truck — to minimize labor expenses.

the property. There were several places far from our hives where our bees could be seen buzzing around. I say *our* bees because we have the only hives in the area. Some of the stumps from the trees cut will be inoculated with bee's wax made by these same bees so we can use them to grow mushrooms. Some hardwood stumps produce mushrooms for up to 50 years when properly cultivated. Winter is the best time to cut them for this purpose because the stumps are holding more sugar. It's good when our various projects overlap and complement each other. Organizing our supporters — self-less unpaid volunteers for the most part — is similar in that each person brings

something different to our table: skills, time, resources, etc., that when combined and organized overlap and reinforce one another. This goal-oriented teamwork is what is helping build and develop our necessary community infrastructure and self-reliance. — *David Pringle, Chief of Staff, West Virginia campus*

### **Taking On Internet Pirates**

Early on in his tenure as Chairman of the National Alliance, Will Williams realized that the book-selling arm of our sister organization, National Vanguard Books (NVB), would find it hard to be competitive as it was a decade ago. All other reasons for this aside, consider that

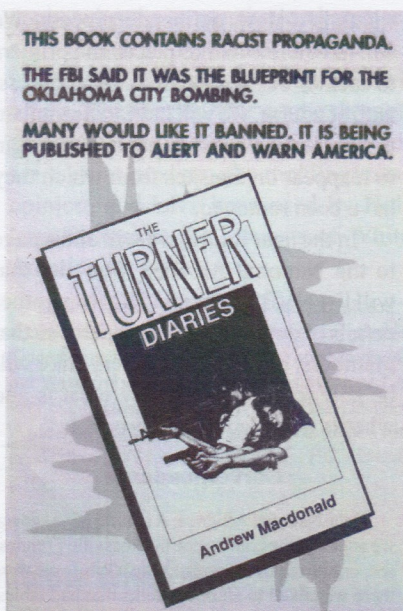

many of the titles NVB used to carry can be purchased online now from large retailers like Amazon.com for \$.01 — one penny! — plus \$3.99 postage and handling. NVB simply cannot compete with that new model, especially by selling books from other publishers that can be purchased cheaper online with a click of a mouse or the tap of a screen.

The National Alliance will adapt to modern trends in getting out its message. NA's publishing arm can compete, as is proven by its online magazine *National Vanguard*, our weekly *American Dissident Voices* broadcasts, and more.

Thanks to the sloth and poor management of Chairman Williams' predecessor, the copyrights to Alliance and NVB intellectual property were not properly protected. Most of the NVB book titles, for example, that are available for sale on Internet book-selling sites are pirated editions, published and sold by opportunistic vultures who saw that public demand for our titles like *The Turner Diaries*, *Hunter*, *Which Way Western Man?*, and others had not been supplied by us for years. So these thieves, without permission, began printing and selling their own rip-off versions of our books to fill the void. This problem is not unique to NVB. Publishing vultures do what vultures do: look for weakness to exploit, and NVB had been exhibiting such weakness for years. The problem includes not just opportunistic publishers but also individuals who hire printing shops to reproduce our material. The pirated editions appear also in electronic form (Kindle and Nook), none of which are authorized.

In all cases, the pirated copies carry International Standard Book Numbers

Jew-owned Barricade Books is arguably the largest producer of pirated copies of *The Turner Diaries*, having sold tens of thousands of copies in open violation of their limited contract with Dr. Pierce. Here we see their edition, with its grey cover (including a picture of our earlier edition and a bogus "racism warning") instead of NVB's familiar red one.

(ISBNs) that make them appear legitimate, but at the same time make them easy for us to identify as bootlegged. The online market places are very cooperative in removing any unauthorized materials once those materials have been identified and brought to their attention by the rightful owner. One marketplace, Abebooks, removed around 60 resellers of just one book, *The Turner Diaries*, that had, all combined, around 1,000 copies for sale. The printing houses are acutely aware of the problem and are cooperating with us to prevent further abuse. Sorting through years of neglect in protecting our copy-

rights is a slow, deliberate process. We still have a few marketplaces and printers to tackle, but we are making progress, and, of course, we will have to be vigilant to ensure the books do not slowly begin to reappear on the sites from which they have been removed.

In the near future, we will add a page to the National Alliance Web site that will list NVB's official ISBNs and other details of our intellectual property so that members, buyers, and readers alike will be able to quickly identify what is and what is not a legitimate product.

### Correspondence

Dear National Alliance: A couple of years ago we attended the conference in Crossville [Tennessee, organized by stormfront.org]. While we were there we talked to all of the folks that had tables, including a representative of the National Alliance. I got a copy of your color pamphlet [*Building A New White World*]. I couldn't believe my eyes when I read it. I was so excited — an organization for Whites! We went to your Web site immediately. Now we listen to your great *American Dissident Voices* radio show every week. I love what you all are doing: securing a future for our children. Mr. Strom, your interview about the alternative media on the Republic Broadcasting Network was fantastic! I loved it!!! Donation enclosed. Thank you, and many blessings to you all. — *L.S., North Carolina*

Dear Chairman Williams: A check is enclosed. Please send 100 of the "MLK" fliers to me. You have done a beautiful job with this. A lot of us knew that he was a phony, but you brought forward the facts of this nicely. King was a sexual deviate and degenerate and can be described as an amoral atavistic troglodyte. Also the "heroic" Talladega airmen story is a fraud, like much so-called "Black history." Can you make a similar flier exposing our first communist president, Abraham Lincoln? He succeeded beautifully, costing the lives of 600,000 of the cream of American manhood. I will help you with donations whenever I can. — *B.M., Mississippi*

*Chairman Williams responds:* Thank you for your support, B.M., and for dis-

tributing our material. There are so many issues impacting our race that we can highlight with our material, but limited resources force us to be very selective to get the most "bang for the buck." The next leaflet we plan to produce for our activists will center around the upcoming 50th anniversary of the deliberate Israeli attack on the American ship, the USS *Liberty* on 8 June 1967. Exposing this Jewish perfidy against the United States and how it has been covered up by Jew-owned media and *shabbos goy* collaborators for 50 years must be widely exposed.

It is uplifting for the National Office to receive letters like the one from L.S. in North Carolina. We hope she will join our Alliance and spread her enthusiasm for our vital work to other Whites who are ready to support an uncompromising organization that works for the exclusive interests of our race — and that names the enemy! The interview with Kevin Strom she mentioned can be heard here:

<http://natall.com/rbn1>

To National Vanguard: I have listened to Dr. Pierce's audiotape rendition of *The Turner Diaries* — twice — all 10 hours. I remastered it myself about three years ago. I knew I would never be able to buy it in my country or import a copy. It would be seized by 'Customs' under the guise of seditious material. I also have a written copy of the book — downloaded about four years ago. I had it professionally bound — like my PhD thesis. My children have read the *Diaries*, and one day I hope my grandchildren will read it too.

There are many people out there who claim to be aware of the hidden forces that are shaping our lives, people such as Jared Taylor, Stefan Molyneux, Bill Whittle, Mike Cernovich, and many, many others, but I would not trust them as far as I could throw them — and that is not very far, really. Why? Well — they talk about the evils of communism, socialism, feminism, multiculturalism, free-trade, fractional reserve banking, and the other "isms" too, but they do not identify the source.

They do not tell us why this source — the Jews, either by commission or omission — are trying to destroy our culture. They avoid this disclosure like the plague. This fact brings to mind Dr. Pierce's comment about trying to fight syphilis without harming the spirochetes. — *W.W., Australia*

Dear National Vanguard: Perhaps the most striking, the most challenging, and the most unsettling quality of *The Turner Diaries* is its moral clarity. I think this explains why readers react so strongly to it. — *A.C., via the Internet*

*Chairman Williams responds:* There has been discussion for years about making *The Turner Diaries* into a movie. If produced, it must be made as true to the book as possible. There will be no

doubt who the sympathetic characters are — and no Political Correctness whatsoever. America is ready for such a film. Distribution will not be through traditional Jew-owned channels. Movies are a great medium for molding mass opinion, and have been used by Hollywood against the interests of White America for too long.

Dear Chairman Williams, I have enclosed a donation for 12 months of my membership pledge. Since I finish school this Spring, I hope to revisit our West Virginia campus again this Summer. I'm very excited to see all of the progress that has been made on The Land since I last visited. Here's to a productive 2017 for our Alliance. — *P.C., Canada*

## Putting the Fight into the White Man

I'm happy to report that January has been relatively quiet for the National Alliance as far as having to make appearances in courtrooms. We are in the good hands of outstanding attorneys who understand that the adversaries who have brought court actions against the National Alliance and me will do no better with their lame "judicial coup" than did the NARRG losers. There will be an update on legal matters in the February **BULLETIN**.

One bizarre development that occurred the last week of January was that the plaintiff in *McLaughlin v. The National Alliance*, John McLaughlin, has set up a "defense fund" named after us, the organization he is suing: He named it the "National Alliance Defense Fund." Mr. McLaughlin's impertinent "Executive Administrative Assistant and Legal Liaison," Garland Corse (our hostile West Virginia neighbor) and her new-found friend Randy Dilloway (the SPLC's anti-

Alliance paid informant) are soliciting funds for the goal of getting a Virginia court to dissolve the Alliance and steal our corporate assets, just as NARRG attempted in vain to do for nearly three years. Although NARRG's suit was finally dismissed several months ago, the pathetic grouplet has now announced their support for McLaughlin and Corse. It's a soap opera, all right — but one that will end soon enough.

In yet another bizarre incident, Garland Corse, representing herself as "Executive Administrative Assistant to the President of the National Alliance," called the owner of the mill that has already purchased three loads of logs from us. She characterized your Chairman and our West Virginia crew to him as a "gang of thieves," stealing trees from someone else's land — her employer John McLaughlin's land, she said. The mill manager and owner contacted us

and we got the mess she caused with her false claim straightened out within a few hours. We even got help from the mill owner and the agent for the West Virginia Department of Forestry to make sure all the paperwork was in order for converting a very limited number of our harvestable trees to Alliance working capital. That, of course, is our right. When I pay Pocahontas County the roughly \$3,000 property tax on The Land (that amount is for the second half of 2016 alone) by the end of February, that will bring to approximately \$15,000 the total I, as Chairman, have paid to the county for the past two and one half years, and always by the due date. I've also paid all of the utility bills on the property for that period — electricity alone is currently running \$500 per month. How will Plaintiff McLaughlin explain to the judge why I, Defendant Williams, pay all of "his" bills? The National Alliance operates within its means, pays for services when billed, and is solvent. Our largest expense by far has been for the legal services required to fight off the likes of NARRG, Garland Corse, her boyfriend, and her employer McLaughlin. I reminded our supporters in the October **BULLETIN** that Dr. Pierce described McLaughlin in a 1993 internal memo to cadre as "not bright" and a "former member" who, like Randy Dilloway in this era, stole books and private information from the Alliance.

Mention of *The Turner Diaries*, the movie, earlier in this issue of the **BULLETIN** is not idle talk. I won't say any more about that now, but keep an open mind to the possibility of positive "big things" in store for our Alliance. As with the book pirates we discussed

earlier, there are numerous legal hurdles involved when dealing with thieves and those in the predominantly Jewish Hollywood movie industry.

The racial divisions in our country and in Europe have already come to a boiling point this year like in no other single year that I can recall since 1968, arguably the most tumultuous year for race relations in the United States since Reconstruction — and it is only January! We didn't have invasive Mestizo "reconquistadors" of La Raza to deal with 50 years ago, or an influx of non-White Muslims from the Middle East and Africa as we do today. Donald Trump is no friend of the White resistance movement, but, as a rogue politician, he has angered so many so-called "progressives" and "protected minorities." This *shabbos goy* shamelessly boasts that he is "1,000 percent for Israel," while disingenuously mouthing "America First" out of the other side of his mouth. We in the Alliance know better.

Conditions are so ripe now for Alliance-building among fellow Whites who can see the handwriting on the wall for our shrinking White "majority." Kinsmen eligible for Alliance membership will be looking for a serious group with a history of holding the hard line against the Jew and of *never* compromising on the issues that impact on their race. The National Alliance is that group. We're it. We can give our people what they need. It is up to those of us already involved in the fight to inspire others to join with us. Dr. Pierce used to say, "We can't put the White Man into the fight until we first put the fight into the White Man."
